

Primary Sector Annual Action Plan (2024-2025)									
Annual Action Plan (2024-2025)									
Sector: Primary Sub-Sector :- Agricultural Technology Management Agency (ATMA) and DSAO Chhatrapati Sambhajnagar									
Sr.No.	Sub- Sector	Objective	Specific Interventions Required	Mapping of existing Approved schemes /programmes that may address the specific intervention required	Existing and Approved schemes		Financial Gap estimated for intervention	financing source for the gap estimated	employment potential
					current FY budget allocation	Average budget utilization in last 3 years in %			
1	Agriculture	<u>Cotton:-</u> 1) To increase the productivity from 2.52 q/ha to 6 q/ha of rainfed cotton, considering that 80% (3.20 lakh ha) of cotton cultivation (out of a total of 4 lakh ha) is rainfed.	Regulation of soil moisture-drainage during excess and conservation during stress involves in-situ moisture conservation. Conducting 50 demonstration trials in each taluka per year (total 450 trials) for the use of BBF technique, opening of dead furrow, and all IEC techniques to train the farmers about the importance of managing moisture stress and excess.	DPDC ,NSFM	10.8	8.54	2.26	DPDC ,NSFM	20
			<u>Use of micro irrigation</u> - 5000 ha area under drip irrigation per year	RKVY, state	2100	1800	300	RKVY, state	10
		2)To educate farmers through training, farm schools, and kisan melas about timely pest control using IEC techniques to reduce the cost of cultivation. This is crucial because the main reason for cotton yield loss is frequent pest attacks, resulting in a 10 to 15% loss in yield, as well as the development of resistance to BT cotton.	a) Educate farmers by arranging 3 trainings per year in each taluka, totaling 27 trainings annually, farm schools (50 every year), and kisan melas, totaling 36 (2 in each taluka in each season), about timely control of pests through IEC techniques to reduce the cost of cultivation. Additionally, conduct mass campaigning of IPM through Biological Control/Bio-labs at the district level (1 lab at the district level).	4 lacs from state scheme & 1 lacs from DPC	10	5	5	4 lacs from state scheme & 1 lacs from DPC	20
		3)To encourage farmer groups and Farmer Producer Companies (FPCs) to establish 18 new FPCs and set up ginning, pressing, and spinning machines at the taluka level.	3) Formation and strengthening of FPOs/FPCs to create value chains. Additionally, establish small-scale ginning machines (18) at APMCs (2 in each taluka).	80 lacs from state scheme and 20 lacs from DPC	0	0	100	80 lacs from state scheme and 20 lacs from DPC	100

2	Agriculture	SOYABEAN:- Promotion of soybean as a nitrogen-fixing rotation crop by conducting 5000 hectares of intercropping demonstration trials with mung and tur per year.	Promote soybean as a nitrogen-fixing rotation crop by conducting intercrop demonstrations with Moong or Tur to improve soil fertility, targeting 5000 hectares per year.	state & DPC	58	0	10	state & DPC	100
		To develop a value chain from farmers to consumers, encourage farmer groups and Farmer Producer Companies (FPCs) to establish 18 Farmer Producer Organizations (FPOs) and train them in the preparation of by-products like soyasticks, soya chunks.	Facilitate market linkages for high-value soybean products through outreach programs. Develop 20 soybean solvent units and 20 units for soyasticks, soyachunks, and soyameals to establish a value chain.	16 lacs from state & 4 lacs from DPC	0	0	20	16 lacs from state & 4 lacs from DPC	80
		To Construct storage infra structure to allow the farmers to wait for volatile market prices to stabilise	Aware the farmers about time-to-time weather conditions, demand-supply dynamics, and global trends. Provide low-interest rate loans to FPOs and farmer groups for the construction of storage infrastructures, establishing [25] storage facilities for soybeans, enabling farmers to wait for favorable market prices.	16 lacs from state & 4 lacs from DPC	0	0	20	16 lacs from state & 4 lacs from DPC	
		To raise awareness among farmers by	& proper drying	80 lacs from state & 20 lacs from DPC	0	0	100	80 lacs from state & 20 lacs from DPC	40
		1) To increase maize yield from 1952 kg/ha to the target level, we aim to diversify the maize crop mix and promote high-value varieties. We aim for a percentage increase in maize yield by adopting precision farming techniques, including innovative technologies where applicable. Additionally, we aim to encourage innovation in maize processing and utilization by monitoring the development of new maize-based products and increased utilization in various industries.	Promote the adoption of high-value maize varieties through [50%] subsidies and awareness programs. Establish a platform for farmers to access information on innovative maize processing techniques. Encourage research and development in the maize industry to create new products and markets.	state	0	0	5	state	20
3	Agriculture	2) To Reduce post harvest losses	Develop and promote small-scale harvesting and shelling equipment (20 harvesters & shellers).	state & DPC			60	state & DPC	
		To Promote grading and sorting to fetch a better price for farmers	Support for promotion of producer groups or companies (1 Grading & Sorting units in each taluka total 9 units at village level)	state & DPC			300	state & DPC	
				state & DPC			100	state & DPC	20

4	Agriculture	To Strengthen Seed Farms & Laboratories:- 1) Strengthening of infrastructure, such as Taluka Seed Farm & Nursery, 5 TSFs, 3 nurseries, and 5 laboratories—Soil Testing Laboratory, Seed Testing Laboratory, Fertilizer Testing Laboratory, and Insecticide Testing Laboratory. To conduct frequent training sessions for laboratory technical staff at various levels.	1) Construction of godowns, farmers' training hall, modules of organic farming like vermicompost, Nadep compost, biodynamic compost, preparation of jivamrut, bijamrut, dashparni ark at each TSF & Nursery (5 TSFs, 3 Nurseries). Renovation of all 5 labs with advanced equipment for the best standard results of samples. Upgrade the technical staff's knowledge by conducting training at the state and national levels.	state & DPC	1000	800	310	state & DPC	20
				state & DPC	0	0	10	state & DPC	
	Horticulture	<u>Sweet Orange, Mango &amp; Pomogranate :-</u> 1) To develop new high-yielding and disease-resistant varieties.	1) Upgrade research facilities in universities and existing research institutions to develop high-yielding and disease-resistant varieties. Educate farmers about good packages of practices to increase fruit production, size, and quality.						10
		1) To improve soil health, as it is key to building resilience in the sector. Over the years, nutrient uptake through commercial farming, along with unscentific application of fertilizers, has degraded it. Provide facilities for soil and leaf testing to plan fertigation.	1) Setting up a new lab along with advisory support via Krishi Vigyan Kendras, SHGs, NGOs are crucial in educating farmers on which fertilizers are best suited based on their soil conditions. It also increases the efficiency of soil testing as suggested in the SHC (Soil Health Card) scheme.  2) Strengthening and upgrading one soil testing lab, well-equipped with world-class						20
		2) To promote the adoption of advanced agricultural techniques, such as high-density plantations. High-density plantations involve the strategic planting of crops at closer spacing, maximizing land utilization and optimizing resource allocation. This technique facilitates efficient nutrient uptake, reduces weed competition, and promotes optimal light interception, resulting in increased productivity.	1) Conduct demonstration trials (500 in each taluka) of high-density plantation. 2) Educate the farmers about good package of practices to increase fruit production, size, and quality.						30
				state & DPC			1500	state & DPC	

Annual Action Plan (2024-2025)									
Sector - Primary			Sub-Sector - Animal Husbandry, Chhatrapati Sambhajnagar						
Sr. No.	Sub - Sector	Objective	Specific Interventions Required	Mapping of Existing Approved Schemes / Programmes that may address the specific intervention required	Existing And Approved Schemes		Financial Gap Estimated for Intervention	Financing Source for the Gap Estimated.	Employment Potential
					Current FY Budget allocation	Average budget utilization in last 3 FYs ( in % )			
		<b>1.Veterinary Healthcare Services:</b> To expand a Mobile Veterinary Unit (MVU) for 500 high-production farms, improving animal care accessibility and reliability. This integration of Livestock Health and Disease Control Program (LHDCP) is expected to result in reduced disease prevalence and mortality rates, enhancing livestock health and productivity. To develop better veterinary services through Setting up Mobile Veterinary Unit (MVU) and Modernizing Veterinary hospitals	Mobile Veterinary Unit Expansion and Accessibility: Acquire more mobile units 10 MVU and trained staff to serve 100 high-production farms across the district's 9 talukas, considering the significant animal population, estimated budget of 3.25 cr INR, and the collaboration requirements with other relevant departments. Livestock Healthcare and Disease Control Integration: Implement a comprehensive district-level program, customizing preventive healthcare measures and disease control strategies to meet the specific needs of each taluka, taking into account the data related to animal population and budget constraints of 5,00,000 INR per year and ensuring effective collaboration with other relevant departments. This includes health check-ups, vaccinations, informative sessions, and using digital platforms to reduce disease prevalence and mortality rates, improving overall livestock health and						

1	Animal Husbandry	<p>2. To Upgrade 3 Taluka Mini Veterinary Polyclinics (TMVP) with advanced treatments, diagnostic services, and inpatient facilities. This initiative aims to effectively address complex veterinary health challenges within the designated timeline, including the implementation of a Timely Vaccine Program.</p>	<p>"Comprehensive Strategy for upgrading Veterinary Polyclinics and Timely Healthcare Interventions"</p> <p>Develop an integrated action plan that includes a comprehensive feasibility study, infrastructure development, and the establishment of advanced veterinary services and a Timely Vaccine Program. Assess the existing infrastructure and prevalent diseases, and plan the necessary facilities, equipment procurement, and staff training for the District Veterinary Polyclinic (DVP) and the 5 Taluka Mini Veterinary Polyclinics (TMVP). Emphasize sustainable energy solutions, waste management, and telemedicine integration. Execute the Timely Vaccine Program with an outreach strategy for administering vaccines, training local professionals, and educating the community. Continuously monitor and evaluate</p>	<p>1962 toll Free number to register veterinary cases to mobile veterinary service is available in limited areas of District. LH &amp; DCP Programme for animal disease control</p> <p>DPC has limited budget for Advancement of veterinary Dispensaries</p>	4.37 Lakh	9.62 Lakh	705 Lakh	DPC	Employment to skilled persons like Driver and AHD Diploma holders (Approx 100)
		<p>Mobile Veterinary Unit Expansion and Accessibility: Acquire more mobile units 15 MVU and trained staff to serve 100 high-production farms across the district's 9 talukas, considering the significant animal population, estimated budget of 20cr INR, and the collaboration requirements with other relevant departments. Livestock Healthcare and Disease Control Integration: C7:C9</p> <p>Implement a comprehensive district-level program, customizing preventive healthcare measures and disease control strategies to meet the specific needs of each taluka, taking into account the data related to animal population and budget constraints of 25,00,000 INR per year and ensuring effective collaboration with other relevant departments. This includes health check-ups, vaccinations, informative sessions, and using digital platforms to reduce disease prevalence and mortality rates, improving overall livestock health and productivity.</p>	<p>Comprehensive Veterinary Training Program: Enhancing Livestock Sector</p> <p>Develop a comprehensive training program for 25 participants annually, integrating practical experience and the latest veterinary advancements, tailored to the local livestock sector's needs. Include practical workshops, technology adoption, and community engagement to ensure hands-on skill development and up-to-date industry knowledge for the veterinarians. Allocate a budget of 2,50,00,000 INR for the program's implementation, covering infrastructure, equipment, and resource development. Foster collaborations with academic institutions, research centers, and industry experts to facilitate continual professional development and effectively address the evolving needs of the livestock sector.</p>						

2	Animal Husbandry	Use of advance Reproductive techniques in Animal Breeding like use of Sex sorted semen (SSS) to get more female animals	Locate the High milk yielding pocks of district to located intrested farmers for induction for use of SSS to produce high yielding cow at own farm	Existing scheme is for limited Dairy Farms on Trial Basis by MLDB	0	0	40 Lakh	MLDB/DPC	Employment to skilled persons like Lab Technicians and AHD Dipoma holders (Approx 500)
		Animal Breeding:	<del>modern breeding technique</del> <b>Educational and Training Programs:</b> Implement workshops and training sessions to educate 80% of local farmers about the benefits of utilizing sex sorted semen and						
		1. To Use of Sex Sorted Semen to produce Only Females Cow and Buffalo for Milk Production Target of 5000 Doses Per Year in District @Rs500 2. To produce good Quality high yielding <del>Fish Cows</del> Using SSS there will be 300 high yielding cows will be targated for each taluka and enhanced 10 to 15% as per the demand.	<b>Infrastructure Development:</b> Allocate ₹50,00,000 for the establishment of modern storage of Liquide nitrogen and distribution facilities for sex sorted semen as well as liquid nitrogen  <b>Financial Support and Incentives:</b> Introduce subsidies and financial incentives, averaging ₹500 per farmer, to encourage the adoption of sex sorted semen technology. Provide ₹2,00,000 in financial support for the procurement of necessary equipment and resources for efficient cattle breeding						
			<b>Monitoring and Evaluation System:</b> Develop a comprehensive monitoring and evaluation system to track the progress of sex sorted semen usage and its impact on cattle production, with quarterly progress reports. Conduct bi-annual assessments and surveys to evaluate the effectiveness of the interventions, involving feedback from at least 300 local farmers.						
		<b>Quality Fodder and Nutrition:</b> 1. To create the awareness of feeding of good quality feed and fodder throughout year to all livestock owners in district to get healthy and productive livestock ecosystem It is Important that animal should get good nutrition for Quality of Milk and Animal should get good quality	Calculate total requirement of village throughout year						Employment

3	Animal Husbandry	<p>2.To distribute seeds of improved varieties of fodder to all livestock owners to get maximum yield of quality feed to manage increasing demand in next 5 years</p> <p>3.To create the awareness of storing the fodder in form of Silage or Fodder Bricks</p>	<p><b>Educational and Training Programs:</b> Implement workshops and training sessions to educate 80% of local farmers about the benefits of improved varieties of fodders as 70% of expences in dairy industry is on fodder</p> <p><b>Financial Support and Incentives:</b> Introduce subsidies and financial incentives, averaging ₹4000 per farmer, to encourage the new varieties of fodders. Provide ₹10,00,000/- in financial support for the procurement seeds of improved varieties of fodder</p> <p>Organize farmers through farmer producing companies to produce and store the fodder for a year in form of silage or fodder bricks</p> <p>Sensitization of farmers on Ration Balancing programme for optimum use of Feed resources</p>	Existing Scheme by ZP supply of fodder Seeds and saplings which is for increase milk Production, Special Livestock Production Program (SLPP)	179 Lakh	150 Lakh	240 lakh	DPC	to Local farmers by maketing of produced and stored of feed and fodder in form of Silage and feed blocks
4	Animal Husbandry	<p><b>Establishment of Advanced Comprahensive Training Center:</b></p> <p>1.To act as incubation center for animal related business for Skill Development and Capacity Building for 1500 farmers in the district</p> <p>2. To induce training of trainers (TOTs) and they will further train the farmers on various aspects of livestock farming</p> <p>3.To Establish a call center and this will work as a Veterinary Telemedicine center which will guide farmers on primary treatment related issues</p>	<p><b>Villages should be identified on the type of farming for Cattle, Goatry and Poultry. Interested and needy persons should be identified and given training</b></p> <p><b>Organize skill development programs and workshops</b> to enhance the understanding of modern dairy farming practices for at least 200 farmers annually. Provide ₹10,00,000 annually for training of farmers to attend specialized training programs and workshops to further enhance their knowledge and skills in the dairy Goatry,</p> <p>This trained trainer will give training to focused groups in the village and will try to reach the last person of village</p> <p>Each trainer will be registered on database and these persons will monitor and evaluate the progress of each village.</p>	Existing Scheme by MLDB, Sheep and Goat Farm and Poultry Farm only for Farmers on	0	0	25,000,000	PC , State Govt	Employment generation by creating skilled manpower for

	Humanity		<p>Launching of 1st kind of <b>Veterinary telemedicine Centre</b> which will guide at least 70% of farmers on primary treatment related issues for which farmer do not have to take their animal to veterinary dispensaries or to mobile clinic in village as he will be getting the</p> <p><b>Promotion of Genetic Diversity by Veterinary training center</b> Launch educational campaigns and seminars to raise awareness about the importance of genetic diversity, reaching out to at least 70% of the farming community within the district. Provide farmers with access to genetic counselling services and expert guidance, supporting the selection of appropriate breeding strategies for their cattle, with an initial investment of ₹5,00,000 for the counselling services setup.</p>	only for farmers with nominal fees and not for technical staff					animal husbandry related business
5	Animal Husbandry	<p><b>Continuation of Existing AHD Schemes By GOI (NLM, RGM, SMART) and State ZP, DPC or Other Corporations (CSR)</b></p> <p>1.To Give Easy Access and Effective Financial Help through existing AHD Schemes By GOI (NLM, RGM, SMART) and State ZP, DPC or Other Corporations (CSR) for Entrepreneurship</p> <p>2. Right Scheme should be delivered to right farmer</p> <p>3. Integration of various Scheme viz Milk and milk products producer farmer should be linked to Direct consumers</p>	<p>Villages should be identified on the type of farming for Cattle, Goatry and Poultry. Interested and needy persons should be identified and given AHD Schemes</p> <p>Information of government scheme should be reach to last farmer of village.</p> <p>Before applying in any government scheme, farmer should be trained on aspects of livestock farming</p> <p>Government scheme beneficiaries will be registered on database and these persons will monitor and evaluate the progress of each village</p> <p><b>Market Linkages and Value Addition:</b> Facilitate direct connections between farmers and dairy processing companies to ensure a steady demand for high-quality dairy products, targeting an annual increase of 15% in market connections. Encourage the establishment of at least 3 value-added dairy product units within the district over the next two years to promote economic growth and enhance the profitability</p>	<p>Central Government Sponsored National Livestock Mission and Rashtriya Gokul Mission are pioneer Schemes for creating New Small Enterpruners in Livestock Industry . Similarly State Govt have Navinya Purn Yojna for Small Scale Farmers scheme in Poultry, Milch Cow and Goat Production</p>	0	0	6 Lakh	PC , State Govt	Employment generation by creating opportunities in animal husbandry related business

Annual Action Plan (2023-24)									
Sector - Primary, Sub Sector - Sericulture, Department :- District Sericulture Office, Chhatrapati Sambhajnagar									
Sr.No.	Sub- Sector	Objective	Specific Interventions Required	Mapping of existing Approved schemes /programmes that may address the specific intervention required	Existing and Approved schemes		Financial Gap estimated for intervention	financing source for the gap estimated	employment potential
					current FY budget allocation	Average budget utilization in last 3 years in %			
1	Sericulture	To increase the area under mulberry plantation by 300 acres, achieve cocoon production up to 150 metric tons, and reduce the cost of cultivation in water-scarce areas.	Identification of new stakeholders for mulberry plantation, government support for silkworm rearing equipment and rearing sheds, and adoption of improved technology through training and technology awareness among existing farmers. Use of micro Irrigation - 200 Acres area under Drip Irrigation	MREGS/ Central Govt. Sponsored Silk Samagra-2 Scheme under State Textile Policy 2018-23 / Pocra Scheme	1200.00 Lakhs	90%	Nil	Existing Departmental Scheme (MREGS,Silk Samagra-2/Pocra)	Total Mulberry Plantation will be 300 Acres + 703 acres Total 1003 Acres
				Central Govt. Sponsored Silk Samagra-2 Scheme under State Textile Policy 2018-23 / Pocra Scheme	135.00 Lakhs	As Per Requirement	Nil	Existing Departmental Scheme (Silk Samagra-2/Pocra)	Mulberry Plantation.1.00 Acre Mulberry Plantation can Provide 36
2		To increase the mulberry nursery plantation area up to 15.00 acres, with the goal of harvesting 18.00 lakhs saplings for 300 acres of mulberry plantation.	Identification of new stakeholders for mulberry nursery plantation. Adoption of improved technology through training and technology awareness among existing farmers.	Central Govt. Sponsored Silk Samagra-2 Scheme under State Textile Policy 2018-23 / Pocra Scheme	Rs.18.00 Lakhs	100%	Nil	Existing Departmental Scheme (Silk Samagra-2/Pocra)	Employment throughout the Year up to Fabric.1003 acres Mulberry
3		To increase the number of silkworm chowki rearers to two, aiming to supply chowki for 2.00 lakhs DFLs (Disease-Free Layings) to convert all rearings through chowki silkworms only.	Identification of silkworm chowki stakeholders. Chowki rearing training for identified rearers.	Central Govt. Sponsored Silk Samagra-2 Scheme under State Textile Policy 2018-23 / Pocra Scheme	Rs.20.00 Lakhs	100%	Nil	Existing Departmental Scheme (Silk Samagra-2/Pocra)	Plantation @ 36 Employment per Acre throughout the Year Means
4		To produce 15.00 lakhs DFLs per year to supply in the state and ensure local availability of silkworm eggs.	To Establish departmental Silkwrpm Seed Production Centre (SSPC)	Sericulture Development Programme, Creation of basic infrastructure and	Rs.530.95 Lakhs (Out of Rs.2800.00	100%	2269.05 Lakhs	Existing Departmental Scheme	36108 Persons get Employment

5		To transfer technology from lab to land and facilitate skill development among stakeholders and technical staff (300 individuals per year in batches of 50 per batch, with 4 training sessions per year).	To Establish Departmental Farmer Residential Training Centre	strengthening of existing Infrastructure under State Textile Policy 2018-23	Lakhs Sanctioned amount only Rs.530.00 Lakh released)			(Included in New Textile Policy 2023-28)	throughout the Year Total 131.79 Lakh Mandays in a year
6		To guide and train for chowki rearing and supply 1.00 lakh DFLs (Disease-Free Layings) of chowki silkworms to the mulberry stakeholders.	To Establish Departmental Chowki Rearing cum training Centre (CRC)						
7	Sericulture Manufacturing /Industry	To reel 100 metric tons of cocoons to produce 15.00 metric tons of raw silk on Multi-End/Automatic Reeling Machines (MRM/ARM) and make it available to the twister.	Identification of new entrepreneurs to establish Multi-End Reeling Machines (MRM).	Central Govt. Sponsored Silk Samagra-2 Scheme under State Textile Policy 2018-23	Rs.20.00 Lakhs for 01 No.	As Per Requirement	Nil	Existing Departmental Scheme (Silk Samagra-2)	As Above
			Identification of New entrepreneur to establish Automatic Reeling Machines (ARM)	Central Govt. Sponsored Silk Samagra-2 Scheme under State Textile Policy 2018-23	Rs.65.00 Lakhs for 01 No.	As Per Requirement	Nil	Existing Departmental Scheme (Silk Samagra-2)	As Above
			Production-based subsidy for silk yarn produced on Multi-End Reeling Machines.	Existing Departmental Scheme (DPDC)	Rs.05.00 Lakhs for 5.00 MT Silk Yarn	As Per Requirement	Nil	Existing Departmental Scheme (Silk Samagra-2)	As Above
8		To process 15.00 metric tons of raw silk by winding, doubling, twisting, dyeing, and make it available for weaving clothes, carpets, curtains, and other silk products at designing and printing centers.	Identification of new entrepreneurs to establish Silk Yarn Twisting, Dyeing, Weaving, Designing, and Printing Centers.	Central Govt. Sponsored Silk Samagra-2 Scheme under State Textile Policy 2018-23	Rs.34.50 Lakhs for 01 No.	As Per Requirement	Nil	Existing Departmental Scheme (Silk Samagra-2)	As Above
9	Sericulture Services	To educate 300 farmers in 6 batches of 50 farmers per batch, with 4 training sessions per year for skill development and knowledge upgrading through residential training and demonstration. The aim is to reduce the cost of cultivation and increase cocoon production by adopting updated and improved technology. Training will be conducted through farm schools. Kisan	Training for identified farmers for skill development with study material and stipend.	Existing Departmental Scheme (DPDC)	Rs.03.00 Lakhs for 300 farmers	100%	Nil	Existing Departmental Scheme (Silk Samagra-2 and DPDC)	As Above
			Identification of new entrepreneurs through promotion and publicity, rallies, group discussions, and exposure visits to them.	Existing Departmental Scheme (DPDC)	Rs.02.00 Lakhs	100%	Nil	Existing Departmental Scheme (DPDC)	As Above

Annual Action Plan (2024-25)									
Sector: Forest			Sub-Sector :- Wildlife Forestry		District : Chhatrapati Sambhajinagar				
Sr.No.	Sub- Sector	Objective	Specific Interventions Required	Mapping of existing Approved schemes /programmes that may address the specific intervention required	Existing and Approved schemes		Financial Gap estimated for intervention	financing source for the gap estimated	employment potential
					current FY budget allocation	Average budget utilization in last 3 years in %			
1	Forest Wildlife Division	1.To increase the tree cover by taking plantation work and raising seedlings in nursery.	<b>1. Site assessment &amp; planning:</b> Assess the locations and plan for 2 hectares dense and 20 hectares fruit tree plantation.	State Govt.Plan Scheme Nature Protection &Wildlife Management	1.20 Cr	100%	0	0	100. contractual
		2. To protect wildlife sanctuaries from fire, illicit tree cutting, grazing, illegal transport of forest produce, and encroachment, in order to enhance wildlife.	<b>2. Precise operations -</b> a. Survey & Demarcation. b. Preparation of Site-Specific Treatment Map. c. Digging of Pits. d. Digging of trench cum mound (TCM) or constructing chain link around plantations to protect them. e. Raising of seedlings, i.e., 0.7 lakh seedlings in the year. a. Creation of a fire line, either 6 meters or 12 meters wide, along the border of the sanctuary and roads passing through the sanctuary. b. Deployment of 50 fire watchers during the fire season to prevent forest fires. c. Supply of forest firefighting equipment such as fire blower machines and firefighting kits to forest officials. d. To counter illicit cutting, establish check posts, deploy protection labor, and provide 2 patrolling vehicles. e. For improved wildlife sanctuary protection, construction of 5 protection huts and 5 watchtowers is necessary, along with the repair of existing structures. f. To address grazing issues, construction of 3 pinfolds (kondwada) is necessary. g. For enhanced protection, strengthen the road network by constructing new forestry roads and	-	0.60 Cr	100%	0	0	500. contractual
		3. To check soil erosion and increase the groundwater table, implement suitable soil and water conservation measures following the top-to-bottom approach of watershed management.	<b>1. Site assessment &amp; Planning:</b> Assess the locations and plan for 50 hectares CCT, 100 Mati nala Bandh, 50 Gabion structures, 100 Loose Boulder structures, and lifting of sludge (Gal Kadhne). <b>2. Precise operations -</b> a. Survey & Demarcation. b. Preparation of Site-Specific Map. c. Digging of CCT along the contour line. d. Treating the nala as per the principles of watershed management.	-	1.70 Cr	93%	2.3 Cr	DPC	500. contractual
	Forest Wildlife Division	4. Integrated development of wildlife habitat by taking up suitable measures.	<b>Site assessment &amp; Planning:</b> Assess the locations and plan for 40 hectares meadow development plantation, 400 hectares Lantana Camara removal (weed removal), installation of 4 bore wells with solar pumps, creation of 14 water holes to mitigate the need for water in summer, strengthening of the Nature Interpretation Center, and supply of water in artificial waterholes during the summer season to meet the water needs of wild animals.	-	0.62 Cr	100%	1.00 Cr	DPC	300. contractual
		5.To create awareness in society about wildlife and there importance	a. Conducting exhibitions and awareness programs on dedicated days. b. Printing leaflets, brochures, coffee table books, etc. c. Creating posters, cantilever boards, signboards, etc						

	6.To generate revenue and provide livelihood opportunities to local people by promoting eco-tourism activities.	a. Identification of tourism zones and their development to attract tourists. b. Creation of nature trails, nature stays, etc. c. Promoting bird-watching, nature education, and boating in water reservoirs, etc. d. Strengthening village eco-development committees for the sustainable development of eco-tourism and thereby increasing livelihood opportunities for rural people. e. Renovation of existing structures such as rest houses, dormitories, etc. f. Promoting homestays to provide employment	-	1.50 Cr	100%	0	0	100.00
	7.To ensure better protection of wildlife sanctuaries, basic infrastructure development is necessary, such as protection huts, check posts, etc.	a. Assessment of site for protection huts to cover the maximum area of the sanctuary. b. Renovation of existing structures such as protection huts, check posts, dormitories, etc.	-	0.45 Cr	97%	0	0	100 contractual
	8. o facilitate protection activities, the development of forest roads and bridges is necessary.	a. For ease of protection, strengthening the existing 10 km road is necessary with the required number of bridges.	-	0.45 Cr	100%	0	0	100. Contractual

	Infrastructure	<b>Goals:</b> To provide universal health care till the last point of community 1. To convert existing PHCs into smart, digitized health institutes.	<b>Procurement:</b> Modular furniture, Computers, Digital boards and IEC material, Ensure Automated and paperless work	NHM					NHM/DPDC/State government	
		2. Get 40 new Primary Health Centers sanctioned as per population norms (1 PHC for 30,000 population). 3. Get 240 new Health and Wellness Subcenters sanctioned as per population norms (1 HWC SC for 5,000 population).	Strategic site selection and land acquisition: Site selection as per population norms and geographical location to ensure easy accessibility. Infrastructure development: Building along with uninterrupted power and water supply for each new SDH, RH, PHC, and SC sanctioned. Network connectivity for each SDH, RH , PHC and SC	NHM IDW	30.16CR	70%	370.00 CR	NHM/DPDC/State government	2000	
2	Service delivery	<b>Goals:</b> 1. Reduce MMR to <25 per 100,000 live births. 2. Reduce IMR to <10 per 1,000 births. 3. Stillbirth rate to be <5 per 1,000 live births. 4. Improve TFR to <1.5. 5. Improve sex ratio to >950 females per 1,000 males.	<b>Intervention: Expand care beyond survival, Referral services, Free diet provision, nutritional counseling, breast feeding, and KMC, Context-specific interventions.</b>  1. Ensure a positive pregnancy experience for every pregnant woman. A. 4 ANC visits with mandatory lab investigations at PHC level. B. At least one sonography for each pregnant woman between 12-20 weeks (Total 60,000 pregnant women to be served at Rs 400 per pregnant woman). C. Referral services under JSK to ensure institutional delivery for every pregnant woman and timely management of complications (Total 60,000 pregnant women to be served at Rs 500 per pregnant woman). D.Nutritional support for PW (Total 21000 PW to be served @ 6000 Rs per PW) Improve FP services Incentive for promoter@100 and beneficiary @300 PMMVY benefits for first child @ 5000/ beneficiary PMMVY benefits for 2nd girl child @ 6000 / beneficiary	NHM (RCH)	106.0 Cr.	85%				
				JSSK	74 lakh	95%	2.4 CR	NHM		
				PMMVY			12.60 Cr	NHM/State fund		
3	Human resource	6.Uninterrupted supply of medicines and vaccines.								
		Improve work conditions for medical officers and paramedical staff To decrease high attrition rate of doctors To fulfill the vacancy position of medical and paramedical staff (>90% staff should be in position). Capacity building of all staff for digital era	1. Increase no. of posts for each PHC 2. Implement fixed duty hrs for medical officers 3. DaCP scheme to reduce high attrition rate Regular recruitment drives  Through regular trainees	NHM				NHM/DPDC/State government	300	

Annual Action Plan (2024-2025)									
Sector - Tertiary		Sub-Sector - Health (Dental College & Hospital)			District : Chhatrapati Sambhajnagar				
Sr. No.	Sub - Sector	Objectives	Specific Interventions Required	Mapping of Existing Approved Schemes / Programmes that may address the	Existing And Approved Schemes		Financial Gap Estimated for Intervention in lacs	Financing Source for the Gap Estimated.	Employment Potential
					Current FY Budget allocation	Average budget utilization in last 3 FYs ( in % )			
1	Health	1) To fulfill equipment and educational resources as prescribed by the Dental Council of India for 63 BDS course admissions. As there is an increase of 13 seats for EWS category students, the intake capacity is now increased from 50 to 63. This expansion will enable us to provide facilities for students admitted to the BDS Course, ensuring they acquire adequate knowledge and necessary skills for carrying out general dental practice. The dental graduate can also understand the concept of community oral health education and provide services in rural healthcare delivery programs to be implemented in the country.	<p>Infrastructure &amp; Resources:</p> <p>Currently, Government Dental College &amp; Hospital, Chhatrapati Sambhajnagar, has facilities for 50 BDS admissions per year as per the norms prescribed by the Dental Council of India. With an increase of 13 seats for EWS category students, the intake capacity is now increased from 50 to 63.</p> <p>There is a need for educational resources and equipment as given by DCI for 63 BDS admissions per year, and they are as follows:</p> <p><b>**EDUCATIONAL BOOKS, JOURNALS &amp; AIDS**</b></p> <p>- Academic books - Reference books - Cost: Rs. 1.50 Crores</p> <p><b>**EQUIPMENT &amp; FURNITURE**</b></p> <p>- Cost: Rs. 9.50 Crores</p> <p><b>**DENTAL MATERIAL &amp; OTHER**</b></p> <p>- Cost: Rs. 1.53 Crores</p>	<p>NON-PLAN &amp; PLAN (PURCHASE OF EDUCATIONAL RESOURCES)</p> <p>STATE PLAN &amp; DISTRICT STATE PLAN (PURCHASE OF EQUIPMENT &amp; MACHINERY)</p>			863	<p>NON-PLAN &amp; PLAN (PURCHASE OF EDUCATIONAL RESOURCES)</p> <p>STATE PLAN &amp; DISTRICT STATE PLAN (PURCHASE OF EQUIPMENT &amp; MACHINERY AS WELL AS DENTAL MATERIALS)</p>	The skilled workforce produced can be utilized in both government and private sectors. Qualified dental surgeons can work at dental institutions, dental hospitals, dental departments at government and private medical colleges, civil hospitals, rural hospitals, primary health centers, and

2	DENTAL STAFF VAN (ELECTRICAL)	<p>DENTAL STAFF VAN (ELECTRICAL)</p> <p>1) To provide dental treatment experience and practice to BDS students in rural areas.</p> <p>2) To provide efficient and effective diagnostic and treatment services in rural and tribal areas in Marathwada region and districts adjacent to Chhatrapati Sambhaji Nagar.</p> <p>3) To implement routine dental check-up programs for school children in and around the city, considering the prevalence of dental diseases in children at an early age.</p>	<p>Public Health Dentistry Department is going to start the MDS Post Graduate Course from next year, as it's not available in any Government Dental College in Maharashtra State. According to the norms prescribed by the Dental Council of India, this department needs one "Staff Bus" with an 18-seater capacity to fulfill DCI norms before starting the MDS Course in Public Health Dentistry. Electrically operated vehicles are now mandatory for use in government sectors. Hence, an Electrically operated Staff Bus may require expenses around Rs. 12,000,000/- (Approx.).</p> <p>For the staff van, the following posts are required and need to be sanctioned:</p> <p>1. Driver - 01 post 2. Cleaner - 01 post</p>	PLAN	Equipment - Rs. 3.10 Crore For Material- 0.80 Crores	100%	120	PLAN	also at hospitals established by corporations, charitable trusts, municipal corporations, and ESIC, etc.
3	DENTAL TOURISM	<p>DENTAL TOURISM</p> <p>1) To initiate and run a dental tourism program by providing world-class dental treatment within a stipulated time period to tourists visiting Chhatrapati Sambhajnagar city.</p> <p>2) To provide dental treatments, such as dental implants and cosmetic surgeries, that involve a significant cost in other countries. Dental surgeries as part of dental tourism are becoming increasingly popular since they could mean a saving of about 70% of the cost for a dental tourist. Another reason for making dental tourism a viable option for many is the fact that in most countries, health insurance plans only cover some of the very basic dental care procedures or do not have any dental insurance. Even those with insurance have to incur heavy out-of-pocket expenditures, making dental tourism grow rapidly.</p> <p>3) To standardize the dental treatment</p>	<p>Infrastructure &amp; Resources:</p> <p>There is a need to establish a Special Dental Unit for providing one-stop/comprehensive dental treatment within a stipulated time period. Additionally, there is a requirement to develop web services/communication services for initial online consultations to save the time of the tourists. Marketing and publicity of the world-class dental services provided by the government institute in the region are also essential.</p> <p>For the Special Dental Unit, equipment and materials are required, which may cost up to 2.00 crores.</p>	STATE PLAN & DISTRICT STATE PLAN (PURCHASE OF EQUIPMENT & MACHINERY)			200	STATE PLAN & DISTRICT STATE PLAN (PURCHASE OF EQUIPMENT & MACHINERY)	Dental Tourism and Interdisciplinary CDE programs will attract tourist toward Chhatrapati Sambhajnagar, which will create employment in tourism & other co-related businesses.
